Point-Biserial Correlation: Seq-logprob vs. Prediction Correctness
Flan-T5 only -- only model for which JSD was computed
Point-biserial r
(Seq-logprob vs. correctness)
0.1
0.0
−0.1
−0.2
−0.3
−0.4
−0.5
Negative r: higher Seq-logprob
-> MORE likely to be incorrect
(overconfidence signature, all p<10e-50)
